The machine went ten feet to the rocky bottom of the river, but beyond being badly shaken up and covered with bruises, its occupants were not seriously hurt.

The men gave their names as Frederick Worthington and Harold Raines. They refused to give the names of the three women in the party.

The accident occurred in front of Hiram Marvel's house on the main highway, One of the women was steefing the car, which was going at a wild raite of speed. Striking a curve, the woman thought the railroad track a continuation of the road, and steered at full speed upon the bridge. Too late to check the car, and not daring to risk sure death by a jump, the three women and two students held fast to their seats while the car tore through the bridge railing and landed in the middle of the stream, which was four feet deep.
